375 Main Street Building #100 Woburn MA 01801

At ESP our Mission is Simple

- #1 Produce the **Highest Quality Insulated Tools in the World** , 100% made in the U.S.A. From the absolute finest materials on earth.
- #2 Offer these hand crafted tools at the **Absolute Lowest Possible Prices**
- #3 Back up our fine products with our **Un-Compromised Industry Leading Service**

What About Quality?- All our tools are **100% made in the U.S.A.** Forged from only the highest grade U.S. Steel. Precision engineered, modified, double insulated, finished and tested to exacting standards that far exceed F-1505 dielectric certification standards.

Our Raw Materials come from the **finest U.S. Tool forges**. These tool forges have stood the test of time by producing the highest quality hand tools for almost **two centuries**. Our tool forge suppliers include **Channel Lock, Wright Tool, Pratt-Read, and Eklind Tool**

Absolute Lowest Pricing- At **ESP** we constantly strive to improve quality while reducing costs so that we are able to **guarantee** that we can offer our customers the absolute lowest possible pricing of comparable quality. This makes **Electrical Safety Products** insulated tools **the overwhelming best value** in the industry.

Un-Compromised Service- We stand behind the craftsmanship of our products and are completely committed to our customers satisfaction. We are available to you **7 days a week**.

Comfort & Safety- Our tools are designed to provide both **maximum comfort & Safety**. 10,000 VAC tested and rated for 1000 VAC. Helps meet OSHA and NFPA 70E requirements. Meets IEC 900 and exceeds ASTM F-1505 standards

Electrical Safety Products is a W/MBE organization . Certified through the **WBENC** and the **SBA** . Conducting business with a **W/MBE** company will exponentially improve your company's ability to secure Local, State, and Federal contracts. Meet corporate diverse supplier goals or help fulfill a disadvantaged subcontracting plan you may have with an existing or future government contract.

Our specialty is Custom Insulated Tool Design

Whether your tools are specifically used in the production of electric cars, wind, solar or nuclear power. We can engineer, modify and insulate just about any tool to far exceed F-1505 certification. If you have a specialty tool for **any electrical application** and need to have that tool safety insulated.

Electrical Safety Products is the one to call!

We are committed to Quality and Affordability

Our tools are made for professionals by professionals. We use the finest materials because our tools are only as good as the materials we use to produce them. This means using tools from the finest American tool forges helping to create good quality American jobs. Safety should not be unaffordable. We are completely committed to offer our fine insulated tools the lowest possible affordable prices.

1-888-204-5306

INSULATED WRENCHES

Our **Wright Tool** specially formulated Hot Forged Tools are the Strongest Longest Lasting tools on the market. Our Open Ended Wrenches feature **Groove-Grip Technology** that provides much better torque load over traditional wrenches. Our Box End Wrenches are **12 Point Sure-Grip** designed for maximum torque and longevity.

Insulated Ratcheting Cable Cutters and Bolt Cutters also available

REVERSIBLE RATCHETS & SOCKETS

Our **Heavy Duty Ratchets** have a **Double-Pawl** Design which *makes 41 teeth work like 82*. This design provides greater strength. Smoother ratcheting action with less effort and increased tool longevity

Our 12 Point Sockets distribute contact stress more effectively than any other socket on the market. stress is spread evenly away from the fastener corners resulting in up to ten times more tool-fastener contact area. This design improves torque load while decreasing the chances of rounding the fastener
